### **ASSEMBLY STEPS**

#### Important:

#### This set is intended for adult assembly only. Please read all instructions carefully before beginning.

- 1. Keep unused parts in the marked bag(s) until required. Some parts appear similar and may be confused.
- 2. Assemble each section separately as shown in the exploded diagrams.
- 3. If parts need to be loosened, use the included RELEASE PLIERS to assist you.
- 4. After each section is complete, assemble the completed sections together into the final unit.

#### **Assembly & Disassembly** How to assemble & disassemble tubes and connectors

- Note: Do not hold a tube or connector where the insertion takes place. fingers may be pinched.
- (1) Push the corner connector onto the tube and twist the tube until a "click" is heard.
- (2) Position the RELEASE PLIERS nodes over the holes where the safety lock pins are visible. Squeeze gently to release the

Fig. 2

tube from the connector.

How to assemble a pair of panel feet

#### How to assemble panel-lock connector

- 1. Push panel-lock connector onto the side panel tube for joining two panels.
- 2. Turn part A of the connector around the tube and then push B forward to lock it.

Fig. 4

Scan this QR code to view a troblueshooting video

3. Push part B and part A back to the original positions to unlock it, and pull tube from connector for separating two panels.
