

World Life APP Reaching End of Support.

Date: JUL 23th, 2018

Firstly, we'd like to thank you for the support to Gigo World Life series (ref no. #7252 ~ #7260).

In a recent product testing, we've found malfunction of World Life APP after upgrading to Android 8.0—the camera setting is misplaced and overlaps with the menu icons. Due to the incompatibility of functional setting between World Life APP and Android 8.0, we're sorry to inform the inability to fix the problems caused.

World Life APP was based on and designed for Android version launched in 2013, and has been updated to comply with later Android versions up to 7.0. As to iOS system, it runs normally up to iOS 11. However, since we cannot anticipate if there will be any significant setting changes in iOS future versions, we cannot guarantee perpetual update of World Life APP.

Once again, we apologize for this incidence, and hope for your kind understanding and continuous support.

Sincerely,

Company: Genius Toy Taiwan Co., Ltd.

Representative: Fiona Lin
